How to Measure

1. Chest Circumference

Measure around the fullest part of your chest with your arms down. Keep the tape level.

2. Waist Circumference

Measure around the narrowest part of your waistline. Located above the belly button and below the rib cage. Keep the tape level.

3. Height Circumference

Wearing no shoes, measure from the top of the head to the ground.

When measuring for pants the hip measurement will provide the best fit and when measuring for tops the chest measurement will provide the best fit.

If you are between sizes please use the larger size for a comfortable fit.
